Program Note:

Telematic large ensemble work for "Inspiring 2010: Telematic Jazz Explorations - New York, San Diego". "Telein" is a Greek word meaning "to initiate into the mysteries". It is related to the Greek words 'telesma', 'telos', and the Arabic 'tilasm' طلاسم. Working with the premiere concert title *Inspiring: Telematic Jazz Explorations* the piece incorporates time and development based on the fibonacci spiral sequence. This is intertwined with multiplicity, spectrum, impulse time, and nodality, to reveal the dimensionality of the music through the telematic medium.
